Capabilities

Petree Farms LLC Demolition, Grading & Excavating was founded in 2023. Our quality of work and reliability keep bringing our customers back. We specialize in Demolition and Excavation for Commercial and residential areas, Land Clearing, Pond Management, Grading, and Tree Clearing. Our philosophy is to provide exactly what you, your project, and your objectives need. Petree Farms LLC has over 20 years of experience on heavy equipment.

Demolition for both Commercial and Residential Buildings which includes any old structures that need to be torn down. Land Clearing of trees which includes shrubs and tall overgrown grass; we have a mulcher head that mulches the product down to act as a natural ground cover. Excavation covers any type of digging such as ponds and waterways to prepare for houses and other buildings. Grading which involves leveling out or reworking ground of any type. examples are dirt, rock, and clay.
